

**SUPPORTING FIGURE 3** Expressions of integrin mRNA in gastric epithelial cells after exposure to *H. pylori*. Relative mRNA expression in AGS cells (A) and MKN28 cells (B). Abbreviations are as follows; integrin-alpha 5 (*ITGAV*), integrin-beta 5 (*ITGB5*), integrin-beta 6 (*ITGB6*), and integrin-beta 8 (*ITGB8*). \* $p < 0.05$ . White column: unexposed cells, Black column: *H. pylori*-exposed cells.
